Section 9)	Co-load Operations Procedure	53
Section 10)	Download ezycargo manual.....	54
Section 11)	Contingency Plan	56

Section 1) Meaning of Acronyms

Terms	Description
ARR	Arrival
AWD	Document ready for Delivery
Back-to-Back	Shipment with one HAWB associated to one MAWB
CIMP	Cargo Interchange Message Procedures
CTO	Cargo Terminal Operator
DC	Destination Carrier or its GHA
DEP	Departure
DFF	Destination Freight Forwarder
DFF GW	Destination Freight Forwarder Gateway / Hub
EDMP	Easy Data Management Platform
FF	Freight Forwarder
FHL	Consolidation List
FNA	Error Message
FOH	Freight On-Hand (cargoes arrive in warehouse)
FWB	Air Waybill Data Update
GHA	Ground Handling Agent
ICT System	Information and Communication Technology System
NFD	Notification for Delivery
OC	Origin Carrier or its GHA
OFF	Origin Freight Forwarder
OFF BB	Origin Freight Forwarder Booking Branch
OFF EB	Origin Freight Forwarder End Branch
OFF GW	Origin Freight Forwarder Gateway / Hub
RCF	Freight Check-in
RCS	Cargo ready for Carriage (Electronic Cargo Receipt)
PMP	Update Mix-prepacked Cargo List
SPL/SPH	Special Handling Code
TC	Transshipment Carrier

Section 2) e-AWB Introduction

2.1 What is e-AWB

The paper Air Waybill is a critical air cargo document that constitutes the contract of carriage between the Shipper and the Carrier.

The e-AWB is the term IATA uses to describe the interchange of electronic data (EDI) message, in lieu of a paper air waybill, to conclude the contract of carriage.

(Source from IATA)

2.2 Objective of e-AWB

- Removal of paper AWB & replace by electronic AWB.
- Replacing paper contract by electronic contract between CX/KA & Freight Forwarder.
- 100% e-AWB is a journey to e-Freight.

2.3 Scope of e-AWB

- Standard process between Freight Forwarder and CX/KA.
- All cargo types.
- All destinations, MC99 or non MC99 (WC/WH).

2.4 Specific obligations for shipments on non-MC99 (WC/WH) routes

- Where a Cargo Contract is concluded in respect of a shipment to be carried on an international route within the meaning of WC/WH, the Freight Forwarder must, immediately after the conclusion of the relevant Cargo Contract (as confirmed to it in one of three methods described in section 6.2), download the copy of the relevant signed AWB from its Ezycargo account.
- If, in relation to any shipment referred to in the previous paragraph, the Freight Forwarder is contracting with CX/KA in the capacity of an agent of the consignor of the shipment, the Freight Forwarder must forward the same to the consignor.

Section 3) How forwarders to send & receive electronic data

For e-AWB implementation, Freight Forwarder must have the capability to send electronic data (FWB & FHL) to CX/KA and receive electronic data (FNA & RCS) from CX/KA. The 2 options stated below are available for Freight Forwarder to execute.

A) Freight Forwarder In-house System

If Freight Forwarders have their own in-house systems or IT services providers which support the FWB / FHL data submission, they may use their in-house system to send the electronic data to CX/KA after system enhancement is done.

For system enhancement, Freight Forwarder IT representatives can contact CX/KA for following up.

Freight forwarder's in-house system must with the following capabilities:

- Send FWB & FHL
- Input Special Handling Codes (e.g. EAW/EAP) as well as all other standard IATA CIMP codes (Refer TACT).
- Receive FNA & RCS

B) Cathay Pacific's CDMP - Ezycargo

If Freight Forwarders do not have in-house system or their system is not able to enhance to exchange messages with CX/KA system, CX/KA offers Ezycargo for Freight Forwarders as an alternative solution.

General Features for Ezycargo:

- Send FWB & FHL
- Include Special Handling Code (both IATA CIMP codes and CX/KA in-house codes)
- Receive FNA & RCS

Additional Features for Ezycargo:

- Check the e-AWB acceptance status (Rejected or Accepted)
- Retrieve the electronic cargo receipt

Section 4) Importance of FWB/FHL Data Accuracy

Regardless of physical paper or electronic message, precise data entry is essential and important as:

- To avoid spending time on unnecessary clarification
- To avoid delay of Customs Clearance
- To prevent shipments from delay in transit stations due incomplete information

Good data quality makes the transport flow more efficient and shipment will be delivered to customers as expected schedule. Poor data may lead to delay. To ensure data accuracy, CX/KA have developed business restrictions in our system to conduct **“DATA VALIDATION”**.

FWB / FHL will be rejected if data submitted is not acceptable for air transport.

The following information (but not limited to) are important points for Freight Forwarders to note:

4.1 Shipment Nature

Before shipments are tendered to airline, Freight Forwarders must ensure the commodities are acceptable and can be transported to destinations. Freight Forwarders shall check with airline if there is any doubt.

For example:

- 1) Can VAL be transported to Amsterdam?
NO. VAL is not accepted for AMS via CX at this moment.
- 2) Are the product of Endangered Species accepted for the USA?
NO. Product of Endangered Species is prohibited for the USA. Information could find on TACT.

4.2 Invalid Characters in Electronic Message

According to IATA standard, some characters are not accepted in electronic message. If invalid characters are inserted, electronic message will be rejected.

Below are the only 2 punctuation marks acceptable according to IATA standard:

- **Hyphen (-)**
- **Full stop (.)**

Please be aware, House AWB numbers field only allow mixed alpha (characters A through Z) and figures (numerals 0 through 9).

4.4 Flight Bookings

Input Carrier Code [19A] (2 characters), Flight Number [19A] (5 characters), Day [19A] (2 characters).
It can be repeated [19B].

To	By First Carrier	Package/Container	to	By	to	By	Currency	Class	WT/VAL	Other	Declared Value for Carriage	Declared Value for Customs
Airport of Destination			Flight/Date	Package/Container	Flight/Date	Amount of Insurance		INSURANCE - If Carrier offers insurance and such insurance is requested in accordance with conditions of carriage listed indicate amount to be insured in figure in box marked "Amount of Insurance."				
Handling Information												SG

4.5 Routing

Input Airport/City Code [11A] (3 characters), Carrier Code [11B] (2 characters) and onward destination/Carrier if applicable, Airport/City Code [11C] (3 characters), Carrier Code [11D] (2 characters). It can be repeated [11E]/[11F].

Agent's ATA Code		Account No.										
Airport of Departure (Addr. of First Carrier) and Requested Routing												
To	By First Carrier	Package/Container	to	By	to	By	Currency	Class	WT/VAL	Other	Declared Value for Carriage	Declared Value for Customs
11A	11B		11C	11D	11E	11F	Amount of Insurance		INSURANCE - If Carrier offers insurance and such insurance is requested in accordance with conditions of carriage listed indicate amount to be insured in figure in box marked "Amount of Insurance."			
Airport of Destination			Flight/Date	Package/Container	Flight/Date	Amount of Insurance		INSURANCE - If Carrier offers insurance and such insurance is requested in accordance with conditions of carriage listed indicate amount to be insured in figure in box marked "Amount of Insurance."				
Handling Information												SG

4.6 Address (with Postal code and State code)

Shipper:

Input Name [2] (35 characters), Street Address [2] (35 characters), Place [2] (17 characters),
State/Province [2] (9 characters), Country Code [2] (2 characters), Postal Code [2] (9 characters),
Contact Identifier [2] (3 characters), Contact Number [2] (25 characters).

Consignee:

Input Name [4] (35 characters), Street Address [4] (35 characters), Place [4] (17 characters),
State/Province [4] (9 characters), Country Code [4] (2 characters), Postal Code [4] (9 characters),
Contact Identifier [4] (3 characters), Contact Number [4] (25 characters).

Shipper's Name and Address <div style="text-align: center; font-size: 2em;">②</div>		Shipper's Account Number	Not Negotiable Air Waybill Issued By
Consignee's Name and Address <div style="text-align: center; font-size: 2em;">④</div>		Consignee's Account Number	Copies 1, 2 and 3 of this Air Waybill are originals and have the same validity. It is agreed that the goods described herein are accepted in apparent good order and condition (except as noted for carriage) SUBJECT TO THE CONDITIONS OF CONTRACT ON THE REVERSE HEREOF. ALL GOODS MAY BE CARRIED BY ANY OTHER MEANS INCLUDING ROAD OR ANY OTHER CARRIER UNLESS SPECIFIC CONTRARY INSTRUCTIONS ARE GIVEN HEREON BY THE SHIPPER, AND SHIPPER AGREES THAT THE SHIPMENT MAY BE CARRIED VIA INTERMEDIATE STOPPING PLACES WHICH THE CARRIER DEEMS APPROPRIATE. THE SHIPPER'S ATTENTION IS DRAWN TO THE NOTICE CONCERNING CARRIER'S LIMITATION OF LIABILITY. Shipper may increase such limitation of liability by declaring a higher value for carriage and paying a supplemental charge if required.
Booking Carrier's Agent Name and City			Accounting Information
Agent's IATA Code	Account No.		

The full name and address of shipper / consignee must be clearly inserted in FWB/FHL. Certain countries customs mandate required the correct Postal code & State code to be shown. Invalid format or missing data may result in FWB rejected by Airline or delaying the shipment delivery. Freight Forwarders must pay attention on the local Customs requirement on the address field.

Shipper or Consignee Address format information

Name

Street address (street number and street name is the key address)

Place + State/Province

Country code + Postal code + Contact Identifier + Contact number

Examples to illustrate the correct format of Postal Code for some countries:

i) USA

- **Postal code** – contains 5-digits of numeric
e.g. 12345
- **State code** – contains 2 letters
e.g. NY

ii) Canada

- **Postal code** – contains 6-digits with Alpha Numeric/Alpha Numeric/Alpha Numeric
e.g. K3A6L8
- **State code** – contains 2 letters
e.g. BC

iii) Australia Postal code – contains 4-digits of numeric e.g. 1234

Abbreviations for Types of Streets/Roads/etc.

ARC	—	Arcade
AVE	—	Avenue
BVD	—	Boulevard
CL	—	Close
CRES	—	Crescent
DR	—	Drive
ESP	—	Esplanade
GR	—	Grove
HWY	—	Highway
PDE	—	Parade
PL	—	Place
RD	—	Road
SQ	—	Square
ST	—	Street
TCE	—	Terrace

4.7 Agent's IATA Code & Issuing Carrier's Agent Name and City

7 digits of IATA Agent Code [7] plus 4 digits of CASS Address [7] are required and follow by Name [6] (35 characters) and Place [6] (Airport code or City code) (17 characters) of Issuing Carrier's Agent. It's not necessary to input address in this field.

Issuing Carrier's Agent Name and City 6		Accounting Information
Agent's IATA Code 7	Account No.	
Airport of Departure (Addr. of First Carrier) and Requested Routing		

4.8 Accounting Information

The following information can be inputted in accounting information [10] field:

- XPS or Priority Lift.
- Export License number (for non-consolidation shipment). (Optional)
- Loading information can be inserted if required by the Forwarder in destination. (Optional)

Space available is 34 characters x 6 rows of total 204 characters.

Consignee's Name and Address		Consignee's Account Number		It is agreed that the goods described herein are accepted in apparent good order and condition except as noted for carriage SUBJECT TO THE CONDITIONS OF CONTRACT ON THE REVERSE HEREOF. ALL GOODS MAY BE CARRIED BY ANY OTHER MEANS INCLUDING ROAD OR ANY OTHER CARRIER UNLESS SPECIFIC CONTRARY INSTRUCTIONS ARE GIVEN HEREON BY THE SHIPPER, AND SHIPPER AGREES THAT THE SHIPMENT MAY BE CARRIED VIA INTERMEDIATE STOPPING PLACES WHICH THE CARRIER DEEMS APPROPRIATE. THE SHIPPER'S ATTENTION IS DRAWN TO THE NOTICE CONCERNING CARRIER'S LIMITATION OF LIABILITY. Shipper may increase such limitation of liability by declaring a higher value for carriage and paying a supplemental charge if required.									
Issuing Carrier's Agent Name and City				Accounting Information <div style="text-align: center; font-size: 48px; border: 2px solid black; border-radius: 50%; width: 60px; margin: 0 auto;">10</div>									
Agent's IATA Code		Account No.											
Airport of Departure (Addr. of First Carrier) and Requested Routing													
To	By First Carrier	By Second Carrier	to										

4.9 Charge Declarations

Input Currency Code [12] (3 characters), Select Prepaid or Correct Indicator [14A] [14B] for Weight/Valuation, Select Prepaid or Correct Indicator [15A] [15B] for Other Charges, Declared Value for Carriage [16] (12 characters), Declared Value for Customs [17] (12 characters), Amount of Insurance (XXX) [20].

Issuing Carrier's Agent Name and City				Accounting Information									
Agent's IATA Code		Account No.											
Airport of Departure (Addr. of First Carrier) and Requested Routing													
To	By First Carrier	By Second Carrier	to										
Airport of Destination				High/Low	High/Low	High/Low	High/Low	Amount of Insurance	INSURANCE - If Carrier offers insurance and such insurance is requested in accordance with conditions on invoice listed indicate amount to be insured in figures to be marked "Amount of Insurance."				
Handling Information													

4.10 Handling Information (SSR and OSI line)

SSR means Special Service Request [21]. (65 characters x 3 rows = 195 characters)

OSI means Other Service Information [21]. (65 characters x 3 rows = 195 characters)

Information input in SSR and OSI line will be shown on Handling Information field.

Airport of Destination		Flight/Date		Flight/Date		Amount of Insurance		INSURANCE - If Carrier offers insurance and such insurance is requested in accordance with conditions on invoice listed indicate amount to be insured in figure in box marked "Amount of Insurance."	
Handling information									
(21)									
OSI									
No. of Pieces (PCP)	Gross Weight	No. (N)	Rate Class	Chargeable Weight	Rate / Charge	Total		Nature and Quantity of Goods (incl. Dimensions or Volume)	
			Commodity Item No.						

The following information must be inserted in SSR or OSI line if it is DG shipment, live animal shipment, or shipment request special handling:

For Dangerous Goods shipment -

- "Dangerous Goods as per attached DGD"
- "Dangerous Goods as per attached DGD – CAO"

For Shipment containing both Dangerous Goods and non dangerous goods -

- "5 Packages Dangerous Goods as per attached DGD"
- "5 Packages Dangerous Goods as per attached DGD – CAO"

For Lithium ion or Lithium metal batteries not subject to Dangerous Goods Regulations -

- "Lithium ion batteries in compliance with Section II of PI966"
- "Lithium ion batteries in compliance with Section II of PI967"
- "Lithium metal batteries in compliance with Section II of PI969"
- "Lithium metal batteries in compliance with Section II of PI970"

For Live Animal shipments -

- "Shippers Certificate for Live Animals attached"

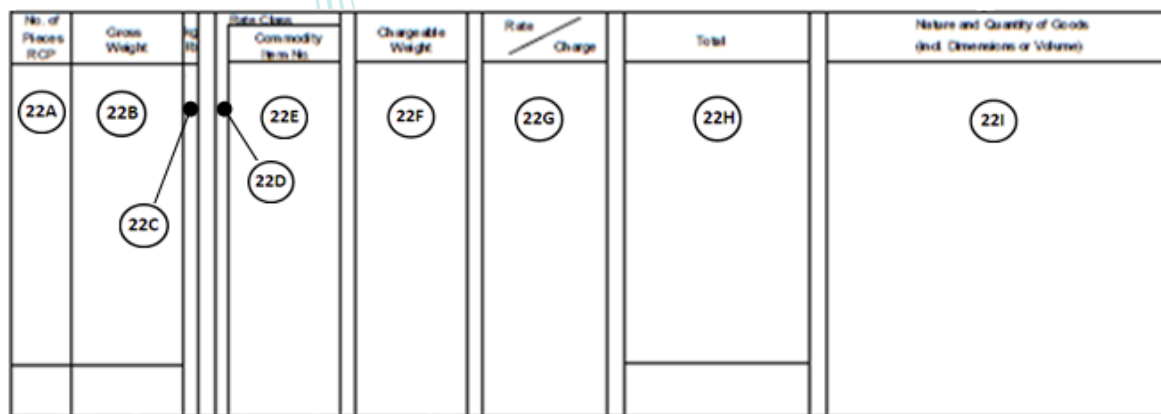

For Special handling shipment information –

- e.g. Perishable cargo – "Keep cool" or "Keep freezer"
- e.g. Pharma Lift – Handling information

4.11 Rate Descriptions

Input AWB Rate Line Number (2 characters),
 Number of Pieces or Rate Combination Point [22A] (4 characters),
 Weight Code [22C] in kg (1 character), Weight [22B] (7 characters),
 Weight Class Code [22D] (1 character),
 Commodity Item Number Details or Rate Class Code (Basis) Class Rate % [22E],
 Chargeable Weight [22F] (7 characters),
 Rate or Charge [22G] (8 characters),
 Total Charge [22H] (12 characters).

Note: It must be issued IATA published rate of 'M', 'N', 'Q', 'S' or 'R' in "Rate Class".

No. of Pieces RCP	Gross Weight	Rate Class	Commodity Item No.	Chargeable Weight	Rate Charge	Total	Nature and Quantity of Goods (incl. Dimensions or Volume)
22A	22B	22C	22D	22E	22F	22G	22H
							22I

4.12 Nature and Quantity of Goods

Space available in goods description field [22I] is 20 characters x 11 rows. It means Goods Description, Dimension, Volume, ULD information, SLAC to share the total of 11 rows.

Goods description must be accurate and specific. Entry of goods description for licensing items shall take precedence. Some goods descriptions in generic term may not be accepted by Customs in some countries. Freight Forwarders must ensure States requirements are observed accordingly.

Example 1:

General Goods Description is not acceptable for Taiwan. It is required to describe the goods as specific as possible. Below generic terms are not precise enough:

General Description which is not precise enough for Customs Clearance		
Spare Parts	Gift Materials	Electric Goods
General Cargo	Sample	Consumer Commodity

Example 2:

U.S. Customs has specific requirements on commodity description.

The following guidelines are illustrative and not exhaustive. They are examples of acceptable and unacceptable descriptions for shipment into U.S. Phrases or words in parenthesis are meant as examples

Not Acceptable	Acceptable
Apparel Wearing Apparel Ladies' Apparel Men's Apparel	Clothing Shoes Footwear Jewellery (may include watches)
Appliances	Kitchen Appliances Industrial Appliances Heat Pump
Auto parts Parts	New Auto parts Used Auto parts
Caps	Baseball Caps Blasting Caps Bottle Caps Hub Caps
Chemicals, hazardous Chemicals, non-hazardous	Actual Chemical Name (not brand name) or U.N. HAZMAT Code Identifier Number
Electronic Goods Electronics	Computers Consumer Electronics, Telephones Electronic Toys (can include Gameboy Game Cubes, Dancing Elmo Doll etc.) Personal/Household Electronics (i.e. PDA's, VCR's, TV's)
Equipment	Industrial Equipment, Oil Well Equipment Automotive Equipment, Poultry Equipment etc.

Not Acceptable	Acceptable
Flooring	Wood Flooring, Plastic Flooring, Carpet, Ceramic Tile, Marble Flooring
Foodstuffs	Oranges, Fish, Packaged Rice, Packaged Grain, Bulk Grain
Iron	Iron Pipes, Steel Pipes
Steel	Iron Building Material, Steel Building Material
Leather Articles	Saddles Leather Handbags Leather Jackets, Shoes
Machinery	Metal Working Machinery Cigarette Making Machinery
Machines	Sewing Machines Printing Machines
Pipes	Plastic Pipes, PVC Pipes, Steel Pipes, Cooper Pipes
Plastic Goods	Plastic Kitchenware, Plastic Houseware, Industrial Plastics Toys, New/Used Auto Parts
Polyurethane	Polyurethane Threads Polyurethane Medical Gloves
Rubber Articles	Rubber Hoses Tires Toys Rubber Conveyor Belts
Rods	Welding Rods, Rebar, Aluminium Rods, Reactor Rods
Scrap	Plastic Scrap, Aluminium Scrap, Iron Scrap
Tiles	Ceramic Tiles, Marble Tiles
Tools	Hand Tools, Power Tools, Industrial Tools
Wires	Electric Wires, Auto Harness, Coiled Wire (Industrial)
-	Personal Effects, Household Goods
STC (Said to Contain), General Cargo, FAK (Freight of All Kinds), "No Description"	-

Note:

1. Some substances under a general description may contain hazardous articles. If no part of the package contents is dangerous, the wording of "Not Restricted" must be indicated after goods description.
2. Goods packed with dry ice – Proper Shipping Name, UN number, Class number, Number of packages must be indicated after description.

3. Dangerous goods in Excepted quantities – The statement of “Dangerous Goods in Excepted Quantities” and Number of packages must be indicated after description. UN number and Quantity of substance information may also required by individual Airline.
4. Radioactive Material in Excepted Packages – Proper Shipping Name, UN number and Number of packages must be indicated after description.
5. Infectious Substance of Category B under UN3373 – Proper Shipper Name, UN Number and Number of packages must be indicated.

Dimension:

Dimensions of the goods are needed in FWB except shipment for Shipper loaded ULD. If number of dimensions information cannot be included in FWB due to space limitation, then the total volume of the consignment shall be inserted.

The way to input free format of dimension is flexible.

e.g. 20x30x40cm-3 or 3-20x30x40cm

For mix-load pre-built ULD, dimensions are optional.

Shipper Load and Count (SLAC):

For shipper loaded ULD under single MAWB, Freight Forwarders are required to enter SLAC information in FWB. For FHL, the SLAC value is required for shipments to US & Canada only.

If Freight Forwarders' systems are not ready for NS field in FWB, they can update in goods description field.

e.g. Actual total pieces 888 pcs loaded into ULD, suggest format in goods description field as below:

Consolidation as per attached list

SLAC-888

The SLAC field is available in FHL version 3. Therefore, Freight Forwarders need to upgrade their system to FHL version 3, or upload the SLAC information into Airline Pouch as an interim solution.

Shipper-built ULD Loading information on AWB is optional.

For FHL – Loading information on house level for destined USA/Canada is required to inform Airline.

Note for IT enhancement, please be aware the requirement on the following identifiers in FWB Layout such as NC, NG, ND, NV, NU and NS:

NC and NG are the Goods data identifier and NC is specifically for Consolidation.

For consolidated shipment, insert the goods description in NC field.

For Non-Consolidated shipment, insert the goods description in NG field.

If NC identifier is not available in FWB message, Freight Forwarder can make use of NG identifier to input the wording either of "Consolidation", "CONSOL", or "CNSL" for the consolidated shipment.

ND is for Dimension, NV is for Volume, NU is for ULD, NS is for SLAC.

If ND, NV, NU, NS identifier is not available in FWB message, Freight Forwarder can make use of NG identifier to input information.

4.13 Other Charges – The correct Charges Code

Input all related other charges.

Original		Weight Charge		Collect		Other Charges	
		Volume Charge				(23)	
		Fuel					
		Total Other Charges Due Agent				Shipper certifies that the particulars on the back hereof are correct and that the contents are in proper condition for carriage by air according to the applicable dangerous goods regulations.	
		Total Other Charges Due Carrier					
Total Freight		Total Collect				Signature of Shipper or its Agent	
Customs Consolidation Fee		No Charges at Origin/ Destination				Signature of Issuing Carrier or its Agent	
For Carrier's Use Only at Destination		Charges at Destination		Total Other Charges			

Each individual charge must be clearly indicated onto 'Other Charges' field [23] in FWB.

The commonly used IATA standard charges codes are specified as below:

Charge codes	Description
AW	Air Waybill/ shipment record preparation fee
MY	Fuel Surcharge – due issuing carrier
XB	Security Surcharge
AT	Live animals Attendant
CC	Manual data entry for customs purposes
CG	Electronic processing or transmission of data for customs purposes
CH	Customs/ regulatory handling at origin
DB	CC Disbursement Fee
DF	Non-standard distribution channel service fee
DG	Air Waybill cancellation before acceptance
DH	Air Waybill amendment by Cargo Charges Correction Advice
EA	Express cargo
FE	General Handling Fee
GT	Government tax
HB	Mortuary (Human remains)
LA	Live animals related services
LF	Live animals Quarantine
MA	Miscellaneous – due agent
MB	Miscellaneous – unassigned
MC	Miscellaneous – due carrier
MO to MX	Miscellaneous – due issuing carrier
MT	Miscellaneous – due issuing carrier (Miscellaneous at Transit – Security Screening Charge for US Destination Shipment)

Charge codes	Description
NS	Navigation surcharge – due issuing carrier
PA	Perishables handling
PU	Pick-up service
RA	Dangerous Goods Fee
RA	Dangerous goods physical/documentary inspection
SC	Security Charge (X-ray or screening Charge)
SE	Proof of delivery
SR	Storage - destination
TX	General taxes
UE	Unit Load Device Leasing
VA	Valuable Handling Fee
XD	War risk Surcharge

For the completed IATA Other Charges codes list, Please refer to IATA TACT Rules 6.2.19 for details.

4.14 Prepaid Charge Summary

Input Total Prepaid Weight Charge amount [24A] [22L] (12 characters), Prepaid Valuation Charge amount [25A] (12 characters) if applicable, Prepaid Taxes Charge amount [26A] (12 characters) if applicable, Prepaid Total Other Charge amount due Agent [27A] (12 characters) if applicable, Prepaid Total Other Charge amount due Carrier [28A] (12 characters), and Prepaid Charge amount Summary Total [30A] (12 characters).

				22L	
Prepaid	Weight Charge	Collect	Other Charges		
24A					
25A					
26A					
27A		Shipper certifies that the goods described on the face hereof are not dangerous goods and are in proper condition for carriage by air according to the applicable dangerous goods regulations.			
28A					
30A		Signature of Shipper or its Agent			
Customs Consolidation Fee		Charges in Kind - Customs		Excluded on: (Date) at (Place) Signature of Booking Office or its Agent	
For Carrier's Use Only at Destination		Charges of Destination		Total Collected Charges	

4.15 Collect Charge Summary

Input Total Collect Weight Charge amount [24B] [22L] (12 characters), Collect Valuation Charge amount [25B] (12 characters) if applicable, Collect Taxes Charge amount [26B] (12 characters) if applicable, Collect Total Other Charge amount due Agent [27B] (12 characters) if applicable, Collect Total Other Charge amount due Carrier [28B] (12 characters), and Collect Charge amount Summary Total [30B] (12 characters).

				22L

Total Other Charges Due Carrier			
Total Proper	Total Collect Signature of Shipper or his Agent	
Customs Consolidation Fee	cc Charges in Cost - Customs		
For Carrier's Use Only at Destination	Charges at Destination	Execution on (Date) at (Place) Signature of Issuing Carrier or its Agent	

4.18 Consolidation List (FHL)

Master AWB Consignment Details:

Airline Prefix – 3 numeric characters.

AWB Serial Number – 8 numeric characters.

Origin Airport/City Code – 3 letter Airport/City codes of Origin.

Destination Airport/City Code – 3 letter Airport/City codes of Destination.

Number of Pieces – can be up to 4 numeric characters.

Weight – can be up to 7 numeric characters, including a decimal point if applicable.

House Waybill Summary Details:

HWB Serial Number – can be up to 12 characters of letters A to Z and numerals 0 to 9.

Special characters (e.g. : / –) and space between letters and numerals are not allowed.

Origin Airport/City Code – 3 letter Airport/City codes of Origin.

Destination Airport/City Code – 3 letter Airport/City codes of Destination.

Number of Pieces – can be up to 4 numeric characters.

Weight – can be up to 7 numeric characters, including a decimal point if applicable.

Manifest Description of Goods – can be up to 15 characters of free format text.

Special Handling Code – 3 letter of special handling codes if applicable.

Can be repeated maximum of 2 times.

Free Text Description of Goods:

The Free Text Description of Goods must be used for transmitting acceptable descriptions to Customs and can be up to 65 characters of free format text.

It is not allowed to start the description in the Manifest Description of Goods and continue the description in the Free Text Description of Goods. The Manifest Description of Goods and Free Text Description of Goods are separate and different data fields and should not be mixed.

Shipper / Consignee:

The Shipper and Consignee details must consist of 4 lines each.

Shippers / Consignees Name – can be up to 35 characters of free format text.

Shippers / Consignees Street Address – can be up to 35 characters of free format text.

Shippers / Consignees Place – can be up to 17 characters in free format text.

Shippers / Consignees State/Province – can be up to 9 characters in free format text.

Shippers / Consignees Country Code – 2 alphabet letters

Shippers / Consignees Country Postcode – can be up to 9 characters in free format text.

Shippers / Consignees Contact – Optional: the contact type (2 alpha), followed by the Contact Number up to 25 characters in free format text.

Charge Declarations:

Currency Code – 3 alphabet letters.

Prepaid/Collect Charge Declarations – Code P (prepaid) at Origin or Code C (collect) at Destination.

Declared Value for Carriage – can be up to 12 characters or No Value Declared (NVD).

Declared Value for Customs - can be up to 12 characters or No Customs Value (NCV).

Amount of Insurance – can be up to 11 characters or No Value (XXX).

For Sub-consolidation Shipment:

1. House Waybill goods description must not specify as “consolidation”.
2. The total number of pieces count in House Waybill must be matched with Master Air Waybill SLAC pieces count.
3. House Waybill Consignee should be the ultimate consignee.

There are total 9 rows of Description of Goods in FHL message.

Normally the first row is for Goods Description and the remark can input into second row onward.

For shipment destination of European countries and in case of shipment required to transit France or Germany by cross boarder trucking services, it is required to complete a Customs Declaration Form ‘T1’ for the purpose of VAT calculation. The ‘T1’ form requires information of Nature of goods, Number of pieces, Weight and Value.

For Consolidation shipment – the value of goods indicated onto House Manifest.

The House Manifest to be put inside a sealed envelop with marked ‘For Customs Clearance’ and forward to destination.

For Direct shipment – the value of goods indicated onto AWB’s ‘Declared Value for Customs’ box.

4.19 Important Time Frame

Freight Forwarders shall send the electronic message to CX/KA before shipment cut-off time.

Once FWB / FHL + FOH (by CTO) are received, CX/KA system will start data validation. A feedback of FNA or RCS will be sent to Freight Forwarders within 30 minutes.

If FNA is received, Freight Forwarders shall amend the error. The corrected message shall be resent to CX/KA for data validation again. This shall also be completed before the shipment cut-off time. The flow is as follow:

1st Scenario - Consolidation

FWB / FHL + FOH(by CTO) → CX Validation → FNA / RCS

(Freight Forwarders to send all electronic messages to CX/KA before shipment cut-off time)

(System to perform data validation only after FWB/FHL/FOH are well received)

(Within 30 minutes, CX/KA to send FNA if there is error in the submitted data. RCS will be sent if the data is correct)

2nd Scenario – Direct Shipment

FWB + FOH(by CTO) → CX Validation → FNA / RCS

(Freight Forwarders to send all electronic messages to CX/KA before shipment cut-off time)

(System to perform data validation only after FWB/FOH are well received)

(Within 30 minutes, CX/KA to send FNA if there is error in the submitted data. RCS will be sent if the data is correct)

Initial electronic message and amended message, if any, must be submitted to CX/KA before shipment cut-off time otherwise it may cause unnecessary delay.

Section 5) Special Handling Code (SPL)

To identify e-AWB shipment attached with document pouch or not, below 2 IATA standard IMP codes are mandatory to input correctly by freight forwarders with effective on 19 November 2012.

- EAW** – Shipment without paper document and pouch.
- EAP** – Shipment with pouch.

To facilitate operations handling and special care to shipment, special cargoes which require Special Handling (SPL) Code must be clearly inserted in FWB. In addition to IATA CIMP codes, to cater for the special need of CX/KA Products, the Airline developed In-house codes for identification.

5.1 IATA CIMP and CX/KA in-house Codes

For Freight Forwarders using own in-house systems, inserting non-IATA CIMP (CX/KA in-house) Codes may require IT enhancement. Freight Forwarders can also input the CX/KA in-house codes through Ezycargo platform.

IATA and CX/KA Special Handling Codes and Description	
ACT	Active Temperature Controlled System
AOG	Aircraft on Ground
AVI	Live Animals
AVD*	Live Dogs/Cats
AVH*	Live Horse
AVB*	Live Bee
AVC*	Cold Blood Animals
AVP*	Aquatics and live fish
BIG	Outsized
BUP	Prepack Unit
CAO	Cargo Aircraft Only
COL	Cool Goods
DIP	Diplomatic Mail
EAP	Shipment with pouch
EAT	Foodstuffs
EAW	Shipment without paper document and pouch
ELI	Lithium ion batteries excepted as per Section II of PI 965 - 967
ELM	Lithium metal batteries excepted as per Section II of PI 968 - 970
FIL	Undeveloped/Unexposed Film
FRO	Frozen Goods
GOG	Hanging Garments
HEA	Heavy Cargo/150 kilograms and over per piece
HEG	Hatching Eggs

IATA and CX/KA Special Handling Codes and Description	
HUM	Human Remains in Coffin
ICE	Dry Ice
LHO	Living Human Organs/Blood
MAG	Magnetized Material
MIX*	Mixed Prepack Unit
MUW	Munitions of War
NWP	Newspapers, Magazines
OBX	Obnoxious Cargo
OHG	Overhang Item
PEA	Shipment made or contain parts of species listed in the CITES
PED*	Durians
PEF	Flowers
PEM	Meat
PEP	Fruits and Vegetables
PER	Perishable Cargo
PES	Fish or Seafood
PET*	Dogs/Cats/Ferrets enter UK with special arrangement
PIL	Pharmaceuticals
PLT*	Pallet Load (Shipment require to load on pallet)
PRS*	Super Priority LIFT
RCL	Cryogenic Liquids
RCM	Corrosive
RCX	Explosives 1.3C
RDS	Biological Substance, Category B (UN3373)
REQ	Dangerous Goods in Excepted Quantities
REX	Reserved for normally forbidden Explosives
RFG	Flammable Gas
RFL	Flammable Liquid
RFS	Flammable Solid
RFW	Dangerous when Wet
RGX	Explosives 1.3G
RIS	Infectious Substance (UN2814 or UN2900)
RLI	Fully regulated lithium ion batteries (Cl. 9) as per Section I of PI 965 - 967
RLM	Fully regulated lithium metal batteries (Cl. 9) as per Section I of PI 968 - 970
RMD	Miscellaneous Dangerous Goods

IATA and CX/KA Special Handling Codes and Description	
RNG	Non-Flammable Non-Toxic Gas
ROP	Organic Peroxide
ROX	Oxidizer
RPB	Toxic Substance
RPG	Toxic Gas
RRE	Excepted Package of Radioactive Material
RRW	Radioactive Material Category I-White
RRY	Radioactive Material Category II & III-Yellow
RSB	Polymeric Beads
RSC	Spontaneously Combustible
RXB	Explosives 1.4B
RXC	Explosives 1.4C
RXD	Explosives 1.4D
RXE	Explosives 1.4E
RXG	Explosives 1.4G
RXS	Explosives 1.4S
SAL	Surface Mail
SCO	Cargo Secure for All-Cargo Aircraft Only
SHE*	Super Heavy Cargo over 11,000kg
SHL	Save Human Life
SHR	Secure for Passenger, All-Cargo and All-Mail Aircraft in Accordance with High Risk Requirements
SKD*	Skid Cargoes
SMT	Security Measurement at Transit
SPX	Cargo Secure for Passenger and All-Cargo Aircraft
SUR	Surface Transportation
SWC*	Vibration Sensitive
SWP	Sporting Weapons
VAL	Valuable Cargo
VOL	Volume Cargo
VUN	Vulnerable Cargo
VUP	Mobile Phone Shipment
WET	Wet Material not Packed in Watertight Containers
XPS	Priority LIFT

Notes:

- 1) * Indicates as CX/KA In-house Codes
- 2) CX/KA In-house Code of **PRS** with effective on 29 September, 2010
- 3) IMP Codes of ELI / ELM / RLI / RLM with effective on 01 January, 2011
- 4) IMP Codes of EAP / EAW with effective on 19 September, 2012
- 5) The rest are IATA Codes

5.2 IATA CIMP Codes not accepted in FWB

Part of IATA CIMP codes are designed for Airlines use only. Please do not insert these codes in FWB.

IATA Special Handling Codes which are not accepted by CX	
ATT	Goods attached to Air Waybill
CAT	Cargo attendant accompanying shipment
FRI	Frozen goods subject to veterinary/phytosanitary inspections
PAC	Passenger and cargo
QRT	Quick ramp transfer
RAC	Reserved air cargo
SPF	Laboratory animals

5.3 Shipment not allow release as BUP

Some Destination Customs do not allow releasing shipment as prepack (the whole ULD). Prepacked ULD shipment must be broken down before release.

In this case, Freight Forwarders must be noted that:

- **“BUP” Code should NOT insert in FWB**
- **pieces of shipment on FWB should match with HAWB pieces**

The Customs of following destination do not accept shipment to release as BUP (whole ULD). Freight Forwarders are advised to check local regulations regularly.

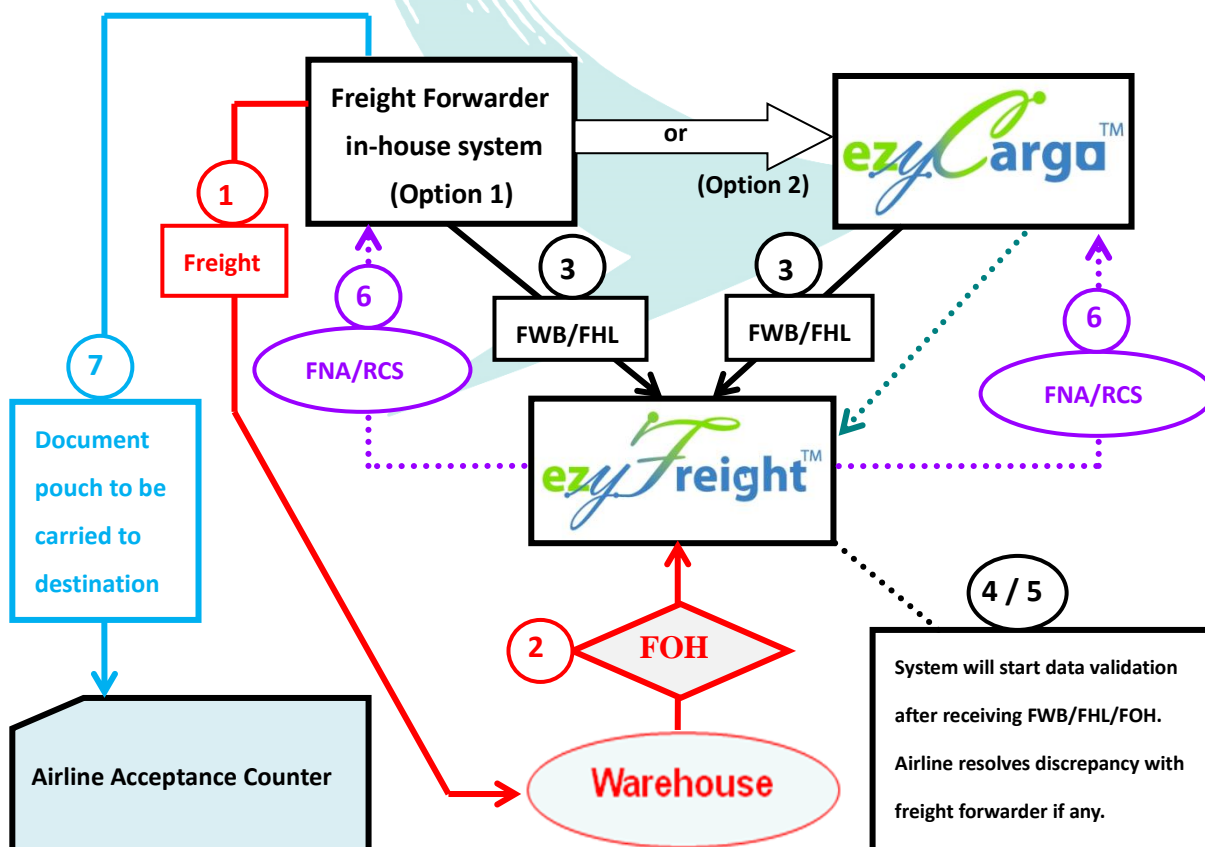

Destination Customs cannot release shipment as BUP (whole ULD)	
BOM	Mumbai
DAC	Dhaka
DEL	Delhi
DPS	Denpasar
FUK	Fukuoka
HAN	Hanoi
MAA	Madras
RUH	Riyadh
SGN	Ho Chi Minh
SPK	Sapporo
XMN	Xiamen

Section 6) Standard Handling Procedure

6.1 Steps for the following flow chart:

- ① Freight Forwarders deliver cargo to CTO before cut-off time.
- ② Warehouse (CTO) sends FOH to Airline after receiving cargo.
- ③ Freight Forwarders send FWB/FHL to Airline before cut-off time.
- ④ Airline to match FWB/FHL and FOH.
- ⑤ Airline to resolve the discrepancy with Freight Forwarder if any.
- ⑥ Airline to send RCS & cargo receipt to Freight Forwarder to confirm that the shipment is ready for carriage and conclude the contract. The FWB & cargo receipt will be archived.
- ⑦ Freight Forwarders can deliver pouch to Airline counter (before cut-off time) if they need Airline to carry it to destination on the same flight with the shipment. If Freight Forwarders deliver the pouch to Airline after the cut-off time, Airline will carry it on the first available flight.

* Airline provides a designated label for affixing on the pouch

6.2 How to read FNA / RCS Message

When FWB/FHL/FOH and required scan documents have been received, CX/KA will perform checking and data validation to confirm data accuracy and shipment ready for carriage. FNA / RCS will be sent back to Freight Forwarders to inform shipment status.

There are 3 ways Freight Forwarders can receive FNA / RCS:

1. Through Freight Forwarders own In-house system.

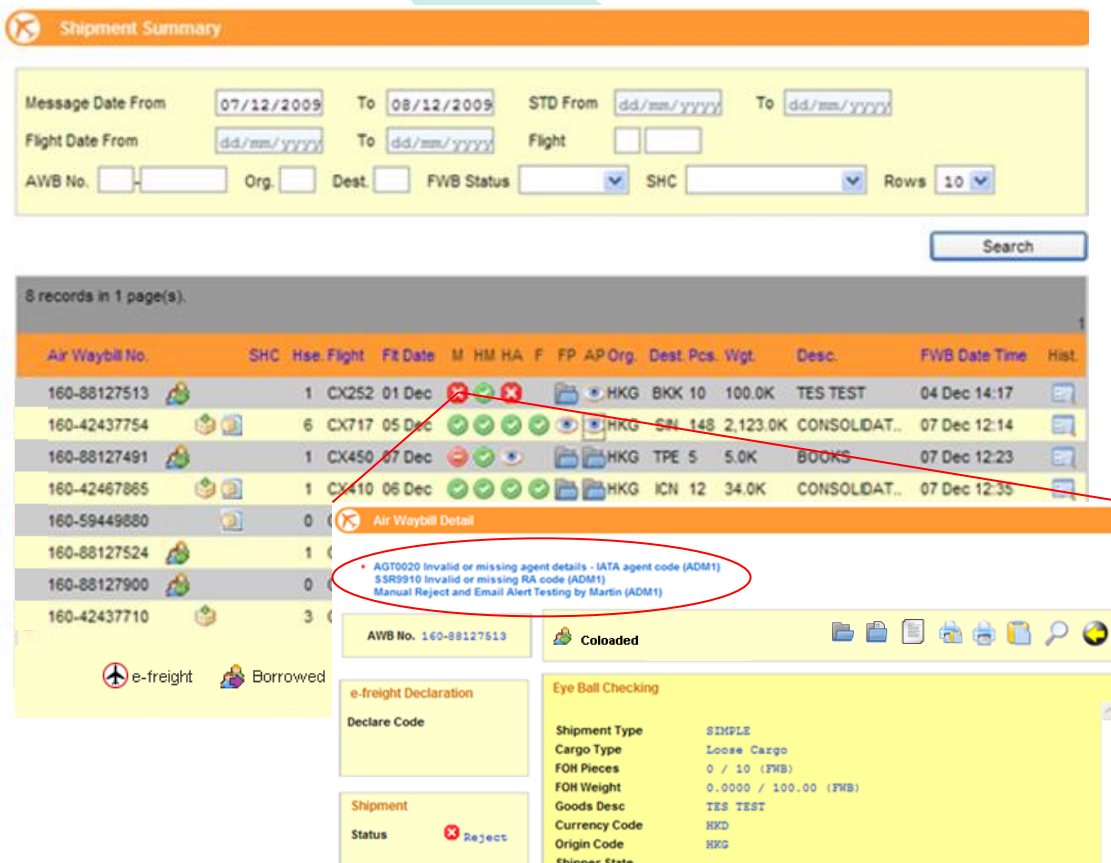

- If Freight Forwarders use own In-house system to send FWB/FHL to CX/KA, CX/KA will send their FNA/RCS back to Freight Forwarders own In-house system as well. However, Freight Forwarders need to confirm if their system have the capability to receive electronic message. This may require IT enhancement.

2. Through Ezyfreight in Ezycargo.

- In Ezycargo, there is a Ezyfreight page (Click 'Air Operation' in Menu Bar. Then, click 'ezyfreight' in dropdown menu again). Freight Forwarders can check the shipment status – FNA/RCS.

Sample 1:

Rejected by Airline – click the rejected icon in MAWB column, the error message code with description can be read. Freight Forwarders must amend the error(s) and resend again.

Example of FNA (Error Message)

From: Ezyfreight [no-reply@glshk.com]
Sent: Tuesday, November 24, 2009 2:04 PM
To: Jam Wong
Subject: Ezyfreight Alert: FWB of Shipment 160-33625056 Contains Errors (FWB/FNA)

Dear Sir/Madam,

The FWB you submitted contains invalid information and has been rejected by the airline.

Rejected FWB:
 Company ID: GLSHK
 AWB Number: 160-33625056

Errors:
 SSR9910 Invalid or missing RA code

Please amend the FWB and resubmit to the airline again.

FNA Updated Date/Time : 11/13/2009 5:06:00 PM

Best Regards,
 Ezyfreight

If an error occurs, e-mail will state clearly the specific rejected reason.

Example of RCS (Ready for Carriage – Electronic Cargo Receipt)

From: Ezyfreight [no-reply@glshk.com]
Sent: Tuesday, November 24, 2009 2:04 PM
To: Jam Wong
Subject: Ezyfreight Alert: Shipment 160-33625056 is Ready for Carriage (FSU/RCS)

Dear Sir/Madam,

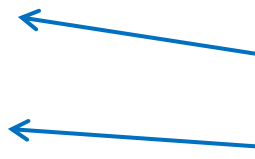

This shipment is now ready for carriage.

Shipment Details:
 Company ID: GLSHK
 AWB Number: 160-33625056 |
 Airport of Shipment Acceptance: HKG
 Piece: 1
 Weight: 2244.0000K

Status Updated Date/Time : 11/13/2009 5:45:03 PM

Best Regards,
 Ezyfreight

If electronic data and scanned documents are error-free, RCS will be sent to Freight Forwarder.

Freight Forwarders shall register e-mail address(es) of responsible person(s) for checking shipment status. When Freight Forwarders receive error message (FNA), action shall be taken as soon as possible to resend correct data to CX/KA for validation again. Error message may not limit to FWB/FHL data only. It can also be an error of required documents which need to be uploaded for validation.

In relation to shipments on WC/WH routes, Freight Forwarders must check their emails regularly to ensure they see RCS emails when received so that they can comply with their obligation to download a copy of the relevant signed AWB and, if necessary, forward the same to the consignor, as is required under section 2.4 and this section 6.2.

Section 7) Meaning / Description of Error Message

The following graph shows the Air Waybill Identification and their corresponding field in Air Waybill. This will help to locate the error stated in error message (FNA).

7.1 Air Waybill Identification

1A 1 1B		99		1A 1B

Section 8) Different Types of Cargo Handling Practice Highlight

The following new procedures will be implemented after e-AWB is adopted.

General Cargo:

- Electronic message (FWB / FHL) will replace paper AWB.
- Freight Forwarders are no longer required to hand-in the paper AWB to Airline.

Dangerous Goods Cargo:

- Freight Forwarders are required to present 2 original 'Dangerous Goods Declaration Form' (DGD) to Handling Agent during Dangerous Goods acceptance and inspection in warehouse.
- These 2 original DGD will be collected by Handling Agent if package(s) contains dangerous goods to be accepted.

Section 9) Co-load Operations Procedure

To cater for co-load practice in air cargo industry, co-load function has been introduced in Ezycargo. This can allow Master Co-loader to release the Air Waybill to 1st Co-loader while if the 1st Co-loader would like to release the AWB to a 2nd Co-loader, they can release to the 2nd Co-loader again.

Same concept applies to 3rd or 4th or more Co-loaders.

There are 3 types of co-load mode which allows the co-loaders to submit the FWB/FHL.

1. Key mode

Master co-loader can send an electronic key to their co-loaders (either ezycargo users or non-ezycargo users). Their co-loaders can then use the key to log-in ezycargo page to submit the FWB and FHL.

2. Ezycargo mode

Master co-loader can co-load the Air Waybills to co-loaders which are also ezycargo users directly.

3. Host-to-Host mode

After master co-loader has co-loaded the Air Waybills to the co-loaders by this mode, the co-loaders are able to submit the FWB and FHL through Host-to-Host channel.

The ultimate co-loader should input their abbreviated company name and contact phone number in the Shipper's Certification field of FWB.

Detailed procedure can be found in website: <http://www.ezycargo.com>

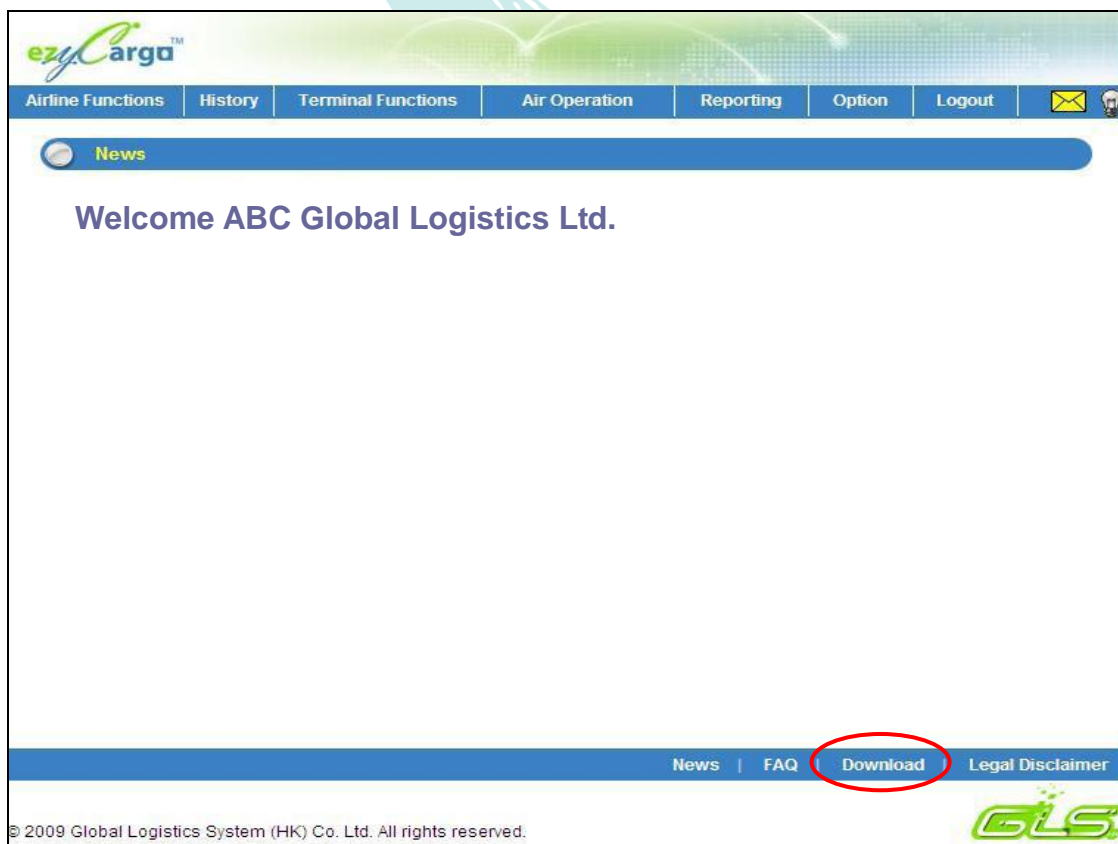

Section 10) Download ezcargo manual

Step to retrieve relevant procedure manual:

- 1) Please use your log-in ID and password to log-in ezcargo

- 2) Press "Download" in the lower right hand corner in main page

3) Select and click to download your required manual accordingly for detailed procedure.

Section 11) Contingency Plan

- For Freight Forwarders using host-to-host system, in case of their system failure, the following contingency plan shall be applied:
 - 1) Use Ezycargo to send FWB/FHL to CX.or
 - 2) Fall back to manual procedure
 - i.e. fax or email the physical AWB and cargo documents to CX local office for acceptance

- For Freight Forwarder using Ezycargo system to send FWB/FHL, in case of system failure, the following contingency plan shall be applied:
 - 1) Fall back to manual procedure
 - i.e. fax or email the physical AWB and cargo documents to CX local office for acceptance

- In the meantime, if Airline observed system failure, helpdesk of GLSHK will notify individual user about the situation and if the requirement of fall back to manual procedure may apply.

Contact information

Forwarder to join IATA eAWB Multilateral Agreement (MeA). Please proceed via IATA website.
