

Shipper's Certification For Live Animals

(to be completed in duplicate)

This is to certify that (check appropriate box):

The animals contained in this consignment are in suitable condition for air transport and have been described and packaged in compliance with the current edition of the IATA Live Animals Regulations and all applicable carrier and governmental regulations. All required advance arrangements have been completed and the animal(s) is (are) in good health and condition.

Animals are wild caught.

Animals taken from the wild for shipment have been appropriately acclimatised.

This consignment includes species as described in the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES). Applicable permits/certificates are attached to the air waybill.

This consignment includes species as described in other applicable national legislation.

In the case of reptiles and amphibians, the animals contained in this shipment are healthy and they have been examined prior to shipment and are free of any apparent injury and readily recognizable diseases. They are also free of external parasitic infestation, including mites, ticks and leeches, that can readily be seen under normal lighting conditions.

The shipper accepts that carriers will not be liable for any loss, damage or expense arising from death due to natural causes, or death or injury of any animal caused by the conduct or acts of the live animal itself or of other animals, such as biting, kicking, goring or smothering, nor for that caused or contributed to by the conditions, nature or propensities of the animals. In no event will carrier be liable for death or injury to an animal attendant caused or contributed to by the condition, conduct or acts of animals.

NOTE: This certificate must not be signed by IATA Cargo Agents, Forwarders or Consolidators.

Shipper's Responsibilities

Instructions for the shippers are given in Chapters 1, 7, 8, 9, 10 and 11 of the IATA Live Animals Regulations. Before any package containing live animals is tendered for transport by air, the shipper must ensure that:

The animals being tendered for transportation are not prohibited by governments;

All the required export, import, and/or transit health certificates, licenses or permits, etc. are accompanying the shipment;

The animal shipments are properly classified, described, packed, marked and labelled;

The IATA Shipper's Certification for Live Animals has been completed in duplicate and in compliance with the current edition of the IATA LAR;

Pregnant animals must not be tendered for transportation without official veterinary certificate certifying that the animals are fit to travel and that there is no risk of birth occurring during the entire journey; (**Note:** *Pregnant monkeys, nursing females with suckling young and unweaned animals are not accepted for air transport.*)

No animals are to be tendered for transportation having given birth in the last 48 hours before the start of the journey;

The animals have been prepared for transportation in compliance with the current edition of the IATA LAR (see specific container requirements for further information);

The animal is not tranquillised without veterinary approval and supervision;

The consignee has been advised of the flight details in order to arrange immediate collection on arrival;

A 24-hour emergency contact number is provided to the carrier from the shipper or their agent, so that instructions can be obtained in the event of an emergency. The same emergency number must be provided on the Air Waybill.

BASIC CHECK SHEET FOR THE ACCEPTANCE OF CONSIGNMENTS CONTAINING LIVE ANIMALS

Species/Animal Type:

Container Requirement number:

Note 1: Prepare form in duplicate.

Note 2: If goods are rejected, hand the original of this form to the Duty Officer and show the shipper's and agent's name below.

Note 3: Never reject a shipment until all items have been checked.

Note 4: *If goods are accepted, attach the original of this form to the air waybill. The duplicate must be placed on the appropriate file.*

Note 5: Answer "not applicable" only where an "N/A" box is provided.

Note 6: If any question is answered "NO", do not accept the shipment and give the duplicate copy of this form back to the shipper or agent together with the consignment.

General Acceptance

YES N/A NO

- Have advance arrangements/bookings been made with all the carriers participating in the carriage of the live animals? [1.2.4]
- The animal(s) of this consignment is (are) not intended for laboratory purpose.[CX-04]
- The animal(s) of this consignment does(do) not belong to Korean Squirrel, Skunk, fight breeds dogs of Pit Bull Terrier, Japanese Tosa, Fila Brasileira and Dogo Argentina.[CX-01 & CX-05]
- If the animal shipment has more than 5 heads of dogs, cats or non-human primates or more than 10 heads of rodents or rabbits, has it been endorsed by HQ? [CSM 13.1.10.8]
- If the shipment is either mink, monkey or nonhuman primates, has it being planned on freighter? [CX-02]
- Have advance arrangements been made at the airport of destination, i.e. for quarantine and delivery? [1.2.4]
- In the event of attendants accompanying the animal(s), have advance arrangements been made with all the carriers concerned? [1.2.8]
- Does the shipment comply with current regulations in force at transit stations? [1.1]
- Where applicable, have carrier/governmental variations been complied with? [2.1 & 3.1]
- The animal shipment belongs to snub-nosed breed [CX-07] AND has been approved.(Select N/A for non snub-nosed shipment)
- The animal shipment does not belong to any kind of wild-caught or captive-bred birds. [CX-03]
