MOVE BEYOND

CATHAY COURIER

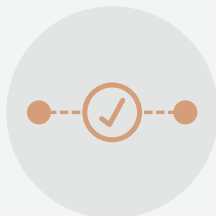

For when time is everything

If you've got a small and time-sensitive shipment, then we've got the solution for you. Cathay Courier, offered in partnership with our exclusive General Sales Agent Linex, offers speed and flexibility, and now also enhanced visibility for all small and urgent parcels, including high-value e-commerce.

Speed and flexibility

Express service with 90-minute acceptance and retrieval, including 'next flight out' certainty across the Cathay Pacific network. Arrival within 24 hours on our intra-Asia service, or 48 hours for long-haul or transit service via Hong Kong, subject to flight scheduling.

First and last mile

A full range of collection and delivery options is available in the territories where Cathay Courier has a footprint, using a network developed in collaboration with our GSA partner Linex.

Visibility

Enhanced visibility with piece level tracking, providing extra assurance for those high-value and urgent parcels. This heightened transparency is available to view on Cathay Courier booking platform, while AWB tracking continues to be accessible on the Cathay Cargo website.

Simplicity

Innovative links between customer, Cathay Cargo and Linex and its partners for greater reliability and reduced paperwork, which provides reconcilable data for easier account management.

Bespoke experience

Experts from Linex and Cathay Cargo will handle all documentation through the booking process and also escort your shipment through dedicated customs lanes.
